Core	Major	Electives

This Study Plan is designed for students who commenced Level I of this degree in 2016 and intend to continue in the degree in 2017 and beyond. Specific course offerings are indicative and correct as of August 2016, and may be subject to change for 2018 and beyond.

## **Program Requirements**

To qualify for the degree of **Bachelor of Health Sciences**, the student must complete satisfactorily a program of study consisting of the following courses with a combined total of not less than 72 units, comprising:

- Level I Health Science courses to the value of at least 12 units, which may include the Core courses and Closed electives
- Level II Health Science courses to the value of at least 12 units, which may include the Core courses and Closed electives
- Level III Health Science courses to the value of at least 12 units, which may include the Core courses and Closed electives
- Core courses to the value of 18 units
- At least one major from the following: Anatomical Sciences; Biochemistry; Epidemiology; Exercise Science; Genetics; Health Promotion; Human Reproductive Health; Indigenous Health; Microbiology; Neuroscience; Nutrition; Pathology; Pharmacology; Physiology
- Elective courses up to the value of up to 27 units which may include closed and open electives.
- Broadening Electives to the value of 9 units.
