Invitation to apply for a clinical title in the School of Psychology

Dear Colleague,

The School of Psychology and especially the Coordinators of the Master of Psychology course work programs are extremely grateful to the Psychologists who make contributions to our programs. Some make teaching contributions in the coursework, while some provide professional supervision for our trainees on Placement.

Accordingly we hope that you will use the attached form to apply for appointment as a University of Adelaide clinical titleholder in the School of Psychology. These positions are honorary but give access to the electronic resources of the Barr-Smith Library, the Psychological Test Library and an email account as well as the use of the title and participation in the activities of the School.

Please send the form to the respective Course Coordinator of the program with the first section completed (though you won't have a Staff ID number yet). In section 2 we suggest you apply for a "clinical" position (the term used for all health professionals), at "senior lecturer" level, which is the appropriate one for registered practitioners with specialty endorsement. Please accompany this with your full CV, including whether you have PBA approval to act as a placement supervisor.

We also need your statement to outline the nature and extent of your current and proposed involvement, in the academic work of the School. Some possibilities are

- provide Placement supervision in the respective Master of Psychology program
- give an occasional coursework seminar in that program
- consider being an external supervisor for research projects
- contribute to the selection process for new students or the program's Advisory/Liaison Committee
- add your affiliation to the School of Psychology to your by-line in peer-reviewed publications (this can be done as an extra, not a replacement for the affiliation you would be giving at your place of paid employment).

Please let me know if you would like to discuss any of the above with the respective Program Coordinators listed below. Then the Program Coordinator will forward your application to the Head of School for processing.

The titles are not specific to any particular program. We would be delighted to welcome you as colleagues in Psychology, just as we are delighted by your generous support for one or more of our course work Masters Programs as shown by your current contributions.
Thank you in anticipation of your application.

Kind regards,

Professor Helen Winefield PhD, FAPS,
Coordinator, Master of Psychology (Health)
Ph. 8313-3172 (Mon-Wed);
